HOT ACQUISITION WORKFORCE TOPICS

SYSTEMS ENGINEERING & ARCHITECTURE OFFICE
January 2026 Edition

New Credentials Deployed
Under the ETM and T&E Functional Areas

In coordination with the Engineering and Technical Management (ETM) and Test and Evaluation (T&E) Functional Integration Teams, **the Warfighting Acquisition University deployed two new credentials to support the ETM and T&E workforces.**

CENG 040: Defense Standardization, covers ways to use DoD standardization documents and market research to effectively manage technical documentation throughout the acquisition lifecycle. Register for this credential HERE.

CTST 005: T&E of AI Fundamentals, explores AI in T&E with students gaining and understanding of the types of AI that impact the field. Register for this credential HERE.

New ETM Learning Asset Available

The Warfighting Acquisition University continues to field credentials in a piecemeal fashion by deploying learning assets as they are ready. One new learning asset has been released! Once all learning assets for a credential are deployed, the credential will go live.

CENG 017: Intermediate Systems Engineering Management

Upcoming Events

JAN 13

HSI Standards for Optimizing the Human in DoW Acquisition
This webinar will explore specific Military and non-government standards that inform contracting HSI activity to achieve HSI goals based on DOW Directives and DOW Instructions. To register, click [HERE](#).

JAN 15

Understanding and Applying Contract Language for DMSMS and PM&P
This webinar will focus on the benefits of using well-crafted contract language to advance DMSMS and PM&P initiatives to bolster supplier agreements.
To register, click [HERE](#).

JAN 15

Software Engineering for Continuous Delivery of Warfighting Ability
This webinar will explore technology modernization, challenges and best practices, and software engineering and workforce competencies as they relate to the memorandum on "Directing Modern Software Acquisition to Maximize Lethality."
To register, click [HERE](#).

FEB 3

Accelerating Warfighter Capability Development & Test
This webinar will showcase the new Joint Engineering and Test Enterprise Portal resource and how it streamlines access to guidance, tools, and data across multiple engineering domains. To register, click [HERE](#).

Check the Warfighting Acquisition University Events at https://www.dau.edu/events for more webinars and events. Webinars are recorded and saved for future viewing by those who could not attend live.
